HONGKONG, APRIL 3RD, 1880. THE Authorities in California seem deter mined to make that State as uncomfortable a residence for Chinese as possible. . No content with passing a law forbidding public officers or corporations to employ Chinese measures have since been taken to interfere with their peculiar mode of life in San Francisco. As most of our readers are doubtless aware, the Chinese quarter is in the lieart San Prancisco, and is confined to comparatively few blocks, but is densely browded. On the 21st February, at a special meeting. of the San Francisco Board of Health. a Committee appointed to investigate the condition of the Chinese quarter presented its report. This was a lengthy document which set forth "that Chinatown has laws customs, Courts, and institutions of its own and utterly at variance and dangerous to the health, morals, and prosperity of the city; that the committee found it unnaturally growded: that some 30,000 Chinese live mainly in the space bounded by California, Montgoniery, Broadway, Dupont, and Kearney streets; that the sanitary condition of that quarter is a disgrace to civilization; that by reason of gross violations of the Fire Ordinances the exemption of the city from conflagration is simply amazing; that large numbers of Chinamen suffering from the most loath; some diseases are found in all portions of Chinatown, left to die in loneliness and want; in the most inhuman manuer; that the social evil is most flendishly illustrated; and that the Chinese population of this city is in anges passed to preserve the health and cleanliness of the city." The report concludes as follows :- "It is the opinion of your Committee that the time has come. The Chinese cancer must be out out of the heart of our city, root and branch, if we have any regard for its future sanitary welfare. will be a mercy to the Chinese themselves as well as to our people to compel them to live in healthier conditions. We wish them no barm, and would inflict on them no hardship. but with all the vacant and healthy territory around this city, it is a shame that the very and interesting character, whilst amongst the -centre be surrendered and abandoned to the health-defying, and law-defying population. We, therefore, recommend that the portion of the city here described be condemned as a nuisance; and we call upon the proper authorities to take the necessary steps for its abatement without delay." The report was unanimously adopted, and the Chinese quarter declared a missinge. Of course this result was hailed with rejoicing by the anti-Chinese journals, but the leading paper, the Alta, expressed the opinion, which all sensible and reasonable-peopl in California will echo, that while all the citizens of San Francisco desired to see the nuisances abated, "no man who man," no " decent American" wished to see the Chinese oppressed or injured, and nothing was to be gained by any attempt to force the settlement of the question by violence. A correspondent of the same journal makes some pithy remarks on the report of the Committee of the Board of Health and asks the following pertiment questions :- "Is the violation of a city ordinance by an individual the creation of a local muisance? The Board of Health give a list of fifteen separate offences | duots with these of any other country. As an instance of the quarter would never have become the rookery it is described. As they have neglected this duly it is only fair that they should the ground for yesterday's sports, as the Artillery give the Chinese ample notice to enable them to bring their dwellings into conformity with the requirements of the law, did and this no doubt will be done, in spite of the feam and fury of the Kearney faction. The Chinese will be prepared to effect the necessary changes. The Six Companies, on hearing of the vote of the Board of Health, issued a bulletin calling upon the Chinese to cleanse and purify their domiciles and do all that was possible to abate any nuisance. Subsequently to this several excited meetings were held at which incendiary speeches were delivered by Kearner and other agitators but up to the time of the mail leaving no direct action had been faken. the 27th February the Mayor of San Francisco in a letter to the Board of Supervisors, called their attention to the action taken by the Board of Health in the condemnation of Chinatown as a wuisance, and asked for the

immediate appointment of a committee b the Supervisors to confer with and assist the Board of Health in their efforts to eradicate the evil complained of. The Mayor than directed attention to a Bill recently passed winning teams in both owe much of their sucto believe would pass the Senate and receive Windrum. But we shall be equally agreed that this must be effected in a logal and peaceable manner, and in such a manner that the most sensitive and sympathetic friends of the Chinese shall have no reason to complain of or even criticise our proceedings. It should be understood, once for all, that all talk from any quarter of violence and bloodshed is the talk of fanatios, on the one hand, or fools, on the other." Meantime the police force has been strengthened in order to put a curb upon the mob led by Kearney and his gang, and there is good reason: to hope that whatever measures may be adopted the Chinese will not be made of the Authorities amount to wrong and persecution, the Chinese Consul would of course convey a remonstrance to the Washington

THE EUPHRATES VALLEY ROUTE TO INDIA.

A paper on the above subject was read on the 18th February by Mr. W. P. Andrew at a meet ing in the hall of the Society of Arts. Adelphi. under the presidency of Lord Strathnairn. Moreover, the opening up this means of communication would afford, ho hought an additional guarantee for the integrity of the Ottoman Empire, besides enabling us more easily to discharge the grave responsibilities we had incurred in our virtual protectorate over Asia Minor. Summing up the general features of in about fourteen days, but would subject an memy advancing towards the north-western frontier of India to easy attack on their flank and rear. The length of the proposed railway from Alexandretta, on the Mediterraneau, to Grain, on the Persian Gulf, would be about 920 miles; while the capital required would be under £1,000,000. In the discussion which followed Sir H. Tyler said he thought that the time had arrived when this scheme should be seriously considered, not only by our Government, but by European Governments generally, so that the Euphrates Valley route might be adopted as an international highway. Sir H. Drummond Wolff, M.P., concurred in the views expressed as to its importance in supplying an efficient means of checking the probable designs of Russia with regard to India. Commander Cameron, on the other hand, claimed for the Tigris route greater value than that which was advocated by the lecturer, remarking that the Euphrates flowed through an unproductive country. Mr. Hanbury, M.P., said that his experionce led him to endorse the opinion expressed as to the Tigris route, adding that Tripoli was a much better harbour than Scanderoon. Mr. Scott-Russell maintained that it would materially advance the views of the promoters if they would discard their present title and adopt in its place that of " London, Constantinople, and Indian Junction Railway," or some similarly comprehensive title. In his opinion the idea of lespatching vessels to the ports which had been nentioned in order that the proposed overland route might be utilized was impracticable and ommercially unsound.

TINGLISH AND CHINESE DICTIONARY. WITH THE PUNTI AND MANDARIN PRONUNCIATION.

An Anglo-Chinese Dictionary, published at the Daily Press Office, Hongkong.

For comprehensiveness and practical_service words which the Chinese have to late years been compelled to coin to express the numerous ob- stracted for the sake of the Postage Stamps. jects in machinery, photography, telegraphy and in science generally, which the rapid savance of foreign relations has imposed upon them, are here given in extenso. Each and every word is fully illustrated and explained, forming exercises for students of a most instructive nature. Both the Court and Punti pronunciations are given the accents being carefully marked on the best principle hitherto attained. The typography [460] displays the success of an attempt to make the Chinese and English type correspond in the size of body, thereby effecting a vast economy of space. achieving a clearness not previously strained, and dispensing with those vast margins with the name of the ship, and preps d 8 cents Smith, Master, will load here for the above Port, and vacant spaces which have herotofore charac-

TEA MUSTERS. Persons who send Musters of Tea through the Post in Tins are requested to have them made flat or square instead of round, as it is impossible to pack round tins securely in the mail bags. It is believed that the tea will travel more safely in flat time, which are not so liable as round ones to be balged in. 4 by 3 by 11 inches is suggested as a good tine.
